

TAYLOR PASS SOLAR

AT A GLANCE

- Located at Marlborough Lines' depot in Blenheim, Marlborough, at the northern tip of New Zealand's South Island
- Marlborough Lines' first solar farm development
- Began producing energy in October 2023
- Features 1,302 solar panels, enough to generate power for the equivalent of around 175 homes

YOUR CONTRIBUTION

- Accelerates Energy Marlborough's renewable generation and regional transport electrification, turning your NZ-EC purchase into tangible green infrastructure
- Supports local beneficiaries and communities through their consumer-owned parent, Marlborough Lines, keeping your NZ-EC spend circulating within the local economy
- Funds visible decarbonisation in the region, strengthening Marlborough's energy resilience and benefiting customers, employees, and the wider community

YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)
