

# OAKRIDGE SOLAR FARM

## AT A GLANCE

- Kiwi Solar's first internally developed, financed and constructed solar farm
- Occupying a 6.5 hectare block between Auckland and Hamilton, Oakridge is Waikato's region first-ever solar farm
- Fully operational and running at full capacity since September 2024
- Features 5,740 cutting-edge solar panels, generating approximately 6.2 GWh of clean energy annually - enough to power 800 local homes

## YOUR CONTRIBUTION

- Helps fund Kiwi Solar's future solar farm developments across New Zealand, including the expansion of the Oakridge Solar Farm
- Supports an optimised land-use model by integrating solar farming with sheep grazing beneath photovoltaic panels
- Advances New Zealand's energy transition while promoting the economic development of the Waikato agrivoltaic sector

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)
