

BENMORE

AT A GLANCE

- Located in NZ's Waitaki Valley, South Island
- Second-largest hydro-station in the country, lying on NZ's largest manmade lake
- Features six 93 MW-generating units, enough to power 298,000 average NZ homes
- Started generated renewable electricity in January 1965
- Doesn't meet certain carbon standards and voluntary global initiatives' asset-age criteria

YOUR CONTRIBUTION

- Gets reinvested in community group decarbonisation projects nationwide through Meridian's Community Decarbonisation Fund
- Can also support your own business decarbonisation initiatives (if your annual consumption exceeds 5 GWh)

YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)

BRAVETRACE STANDARDS ALIGNMENT*

BENMORE DOESN'T MEET CERTAIN ASSET-AGE CRITERIA. REPORTING PARTIES SHOULD CONSIDER WHICH CARBON STANDARD THEY ALIGN WITH.
