

# MILL CREEK

## AT A GLANCE

- Located northwest of Wellington, capital city of New Zealand, near Ōhāriu Valley
- Features 26 turbines generating up to 59.8 MW of renewable electricity, enough to power 34,000 local homes
- Fully operational since 2014
- Built on privately owned farms with consistently strong winds, where wild horses, cattle and sheep share the land with the wind turbines

## YOUR CONTRIBUTION

- Gets reinvested in community group decarbonisation projects nationwide through Meridian's Community Decarbonisation Fund
- Can also support your own business decarbonisation initiatives (if your annual consumption exceeds 5 GWh)

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)
