

# TE UKU

## AT A GLANCE

- Located in NZ's Waikato region, near Raglan
- Built in alliance with WEL Networks, on a working sheep and cattle farm on the Wharaurua Plateau
- The site reaches over 400 metres, with wind speeds increasing as it travels the terrain
- Features 28 turbines generating 64.4 MW, enough to power 27,000 local homes
- Doesn't meet certain carbon standards and voluntary global initiatives' asset-age criteria

## YOUR CONTRIBUTION

- Gets reinvested in community group decarbonisation projects nationwide through Meridian's Community Decarbonisation Fund
- Can also support your own business decarbonisation initiatives (if your annual consumption exceeds 5 GWh)

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)

## BRAVETRACE STANDARDS ALIGNMENT\*

TE UKU DOESN'T MEET CERTAIN ASSET-AGE CRITERIA. REPORTING PARTIES SHOULD CONSIDER WHICH CARBON STANDARD THEY ALIGN WITH.
