

# WHITE HILL

## AT A GLANCE

- Located in NZ's Southland region, on forestry land south-east of Mossburn
- Second wind farm built by Meridian in New Zealand, and the first in the South Island
- Features 29 turbines generating up to 58 MW, enough to power 22,000 local homes
- Construction began in 2006 and the wind farm became fully operational in 2007
- Doesn't meet certain carbon standards and voluntary global initiatives' asset-age criteria

## YOUR CONTRIBUTION

- Gets reinvested in community group decarbonisation projects nationwide through Meridian's Community Decarbonisation Fund
- Can also support your own business decarbonisation initiatives (if your annual consumption exceeds 5 GWh)

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)

## BRAVETRACE STANDARDS ALIGNMENT\*

WHITE HILL DOESN'T MEET CERTAIN ASSET-AGE CRITERIA. REPORTING PARTIES SHOULD CONSIDER WHICH CARBON STANDARD THEY ALIGN WITH.
