

# TAIOHI SOLAR FARM

## AT A GLANCE

- Located in Northern Waikato, New Zealand
- The name Taiohi, meaning youthful, was gifted by mana whenua, recognising the shared commitment to a future built on clean energy and partnership
- NewPower Energy's largest solar farm and generation asset comprising more than 47,000 photovoltaic solar panels
- Developed in conjunction with WEL Networks with best-in-class technology from around the world

## YOUR CONTRIBUTION

- Drives renewable energy to the local community and beyond
- Supports NewPower Energy's partnership with mana whenua, including providing scholarships to rangatahi interested in pursuing a career in the electricity industry
- Helps to enable NewPower Energy's investment in future renewable generation assets

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)

## BRAVETRACE STANDARDS ALIGNMENT\*
