

# LEPPERTON SOLAR

## AT A GLANCE

- Located near Lepperton, a small rural village outside New Plymouth in the Taranaki region of New Zealand
- Aurora Solar is 100% family owned. It supports the family-run farrow-to-finish piggery, in operation for around 40 years
- When commissioned, it was New Zealand's largest peg mounted East-West facing solar array
- Features over 4,000 bifacial solar PV panels, generating over 2.2 GWh annually

## YOUR CONTRIBUTION

- Supports a family-owned initiative combining renewable energy generation with pig farming
- Enables Aurora Solar to expand solar capacity and clean energy production
- Demonstrates how collaboration can advance Aotearoa New Zealand's climate goals and further reduce farm emissions
- Helps drive New Zealand's clean energy future toward net-zero emissions

## YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)
