

RANGIMĀRIE SOLAR FARM

AT A GLANCE

- Located in Northern Waikato, New Zealand
- The name Rangimārie, meaning peace and tranquility, was gifted by Ngāti Pāoa as mana whenua. It recognises the whenua's history as a former coal mining site and its transition to a peaceful, sustainable solar farm
- Features 18,980 photovoltaic solar panels generating 15,790 MWh annually

YOUR CONTRIBUTION

- Drives renewable energy to the local community and beyond
- Helps to enable NewPower Energy's investment in future renewable generation assets

YOUR BENEFITS

- Reduce your reportable electricity-related emissions
- Report zero Scope 2 GHG emissions
- Support Aotearoa New Zealand's renewable future
- Meet stakeholder expectations on climate change
- Make traceable, credible and verifiable claims
- Stand out in marketing and sustainability reports
- Align with international leading standards (subject to generation asset-age limit criteria)
